(See attached file: 06_17_2011_Aspire_Cap Modifications_USEPA Approval_.pdf)

Hello Mike Barr:

Thank you for your patience.

Attached is USEPA's conditional approval of the modifications that Arcadis proposed in its April 25, 2011 letter to the site-wide cap to be constructed at the Aspire school site in Oakland. Arcadis proposed the modifications on behalf of College for Certain, LLC. USEPA's November 13, 2009 letter approving the PCB cleanup notification for the Aspire school site required a site-wide cap as part of the remediation of PCB impacted soils at the site.

Please let me know if you have any questions concerning the attached approval.

Sincerely,
Carmen
